<p>JL-Galaxy JL turning singal light</p>	<p>MS-JL-TSL9</p>	<p>Stock Sucks: No doubt the new Jeep JL is the bigger, badder, more refined Wrangler we've been waiting a decade for, and if you've already upped the ante with a lift, bigger tires, wider wheels, and more power, then it's time to ditch the stock lighting setup too. With hundreds of options out there for JK's but not yet the JL, these are a sure to be a welcome addition in the Wrangler aftermarket! See what they look like in action <a href="#">HERE!</a></p> <p>Compatible: With all Jeep Wrangler JLs except the base "Sport" model, these combination Daytime Running Light (DRL) and Turn signal assemblies will swap directly in place of the original lights, use all of the stock mounting points, and should only take around 30 minutes to install. They are an instant upgrade for JL's with the halogen and upgraded LED package.</p> <p>Plug n Play: Wiring is easy too! These turn signal housings are designed to work without any special wiring. They will plug into the factory connectors for the stock lights and each assembly includes all necessary modules, connectors, and wiring for a fully plug n play install. No modification necessary, no hyper flashing, no errors, no problems!</p> <p>Style: If you've got the halogen DRL's on your Jeep JL now, these will be FAR brighter, whiter, and more modern</p>		
<p>JL fog light bracket</p>	<p>MS-JL-BR01</p>			
<p>JL fog light bracket</p>	<p>MS-JL-BR02</p>
